Forum Composite
Technology

This is the place where efficiency meets success.

The future of composite materials will be defined in Düsseldorf from 7 – 9 October. Be there when the trends and innovations of lightweight technology are presented. Get to know the latest production and automation processes. Make the most of the international flavour and high quality that characterises the exhibitors and framework programme.

440 exhibitors from 25 countries

THE INTERNATIONAL WHO'S WHO OF THE COMPOSITES INDUSTRY

3B Fibreglass • CHOMARAT Textiles Industries • Dieffenbacher GmbH Maschinen- und Anlagenbau • Dow Europe GmbH • ELANTAS ITALIA • ENGEL Austria GmbH • Fill Gesellschaft m. b. H. • G. Angeloni Srl • Gurit • Henkel AG & Co. KGaA • HEXCEL • Kraiburg Austria GmbH & Co. KG • KraussMaffei Technologies GmbH • Scott Bader Company LTD. • Stäubli Tec-Systems GmbH • Toray International Europe GmbH

VISION

One ticket. Two fairs.

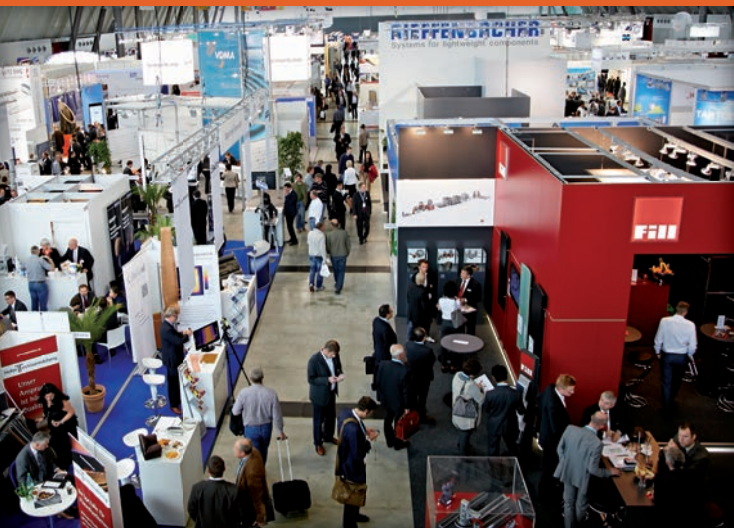

Your ticket for COMPOSITES EUROPE is also valid for ALUMINIUM 2014. The world's leading trade fair for the aluminium industry. It is taking place at the same time in the adjacent Hall 9 through Hall 13. Make the most of this opportunity by directly comparing technologies.

DÜSSELDORF – OUTSTANDING INFRASTRUCTURE IN THE INDUSTRIAL HEART OF EUROPE.

- Attractive for visitors from all industry branches
- Representative location at an established materials fair site and international airport
- Good links to the public transport system
- World's leading trade fair organiser with international industry know-how
- Attractive town centre with countless opportunities for enhanced networking

Central subjects in focus.

Which subjects and technology will define the future of lightweight construction? Which markets will set the trends? You will find out at COMPOSITES EUROPE, since this is where you encounter the entire spectrum of composite materials and the most modern production and automation solutions for the following application industries:

- **Automotive**
- **Aerospace**
- **Building and construction**
- **Industrial equipment**
- **Engineering**
- **Marine / boatbuilding**
- **Pipes, tanks and cases**
- **Sports and leisure**
- **Transport (rail, buses and mass transport)**
- **Wind energy and much more**

What's more, you will receive a broader insight into the industry by visiting our theme pavilions, which include the Bio-based Composites Pavilion and the Pavilion for Young Innovative Companies as well as our country pavilions (including Holland, China, Italy, Russia and the USA).

COMPOSITES

What your trade fair success will look like: The framework programme

As well as the trade fair, COMPOSITES EUROPE also provides you with a complete offer of expert information and practice-oriented events. This offer is one-time-only and will provide you with real added-value.

COMPOSITES FORUM

- Foundations, trends and innovations of the industry
- International lectures by renowned speakers
- Session on automated production (VDMA)
- Including research projects by the Institute of Plastics Processing (IKV) at RWTH Aachen

A circular badge with an orange border and a white background, containing the text "Admission free!" in orange.

Admission free!

PRODUCT DEMONSTRATION AREA

- Product presentations
 - Live displays of processes and procedures
 - **Special exhibition:** Applications of the future by the IKV and other institutes from RWTH Aachen
-

INTERNATIONAL AVK CONVENTION (6 – 7 OCTOBER)

The annual international convention of the AVK (industrial association of reinforced plastics) is also taking place in 2014 at the Düsseldorf Congress Center. This is where the future of fibre-reinforced materials will be discussed and planned. Here are some of the featured subjects:

- Recycling fibre composites and processing carbon waste
- Lightweight construction using multi-material design – metal substitution using hybrid solutions

Event location:

Düsseldorf Messe, Hall 8a and 8b
Stockumer Höfe
40474 Düsseldorf, Germany

Date and opening times:

7 – 9 October 2014, 9 a.m. – 6 p.m.
